

The Society of Remisiers (Singapore) 2021-2023 Executive Committee had our Photoshoot yesterday (9th April 2021) at our Iconic Singapore Merlion, a symbol of Resilience & Prosperity. Following that we had our 1st Executive Committee Meeting to chart the future of the Remisier Profession.

As stated in the President's Election Manifesto, the 2 key areas that we'll focus on would be to provide opportunities for Remisiers to upskill themselves so that they can move up the value chain and have a better livelihood. The second objective is to have meaningful discussions with the Monetary Authority of Singapore, Singapore Exchange, Securities Association of Singapore & other important stakeholders to create a much more vibrant Singapore Capital Market. We're confident that when we put our Heads and Hearts together, Singapore can once again be a premier Capital Market in the region if not the world!

Majulah Singapura! 🇸🇬
